PESUNE

PROBABLE AND POSSIBLE ITEMS AT IAC MEETING

25X1	RC	1 R1
ZUA		ו סי

1.	DCI te	statement	re	use	of	
A	tion states all.	We shaden as married as not as	-			

2. Army's discussion of Situation Reports.

CIA is prepared to listen and to look into present usefulness of Situation Reports but at this time wishes to make no further commitments.

- 3. General Cabell's letter about Intelligence Ecmoranda for the Weapons Systems Evaluation Group was answered on 15 February 1950.
- 4. General Cabell General Megos. Intelligence Advisement for Joint Technical Planning Committee of JOF 3 (JIC h95/d). We think this request of 3 February from General Megos is duplicating the work which CIA is already doing for General Quesada. This was started in CIA in October and seems to be progressing well so we cannot understand why there now is this parallel operation scheduled.
- 5. Proposed Watch Committee.

General Bolling's letter of 20 January was answered by CIA 15 February. We think further, the Staff talks are necessary to differentiate between the Check List or Watch Committee work and the production of rounded intelligence estimates by a possible committee on Soviet Intentions.
